FOR EVERY SHADE OF YOU

BATHROOM COLLECTION

The background of the entire page is a high-resolution, close-up photograph of water ripples. The light reflects off the crests and troughs of the waves, creating a complex, organic pattern of light and dark grey tones. This texture fills the entire frame, providing a serene and naturalistic backdrop for the text.

FINE FIRECLAY

BOCCHI brings back the ultimate material to your home. Fireclay, a 100% natural and recyclable material, used by craftsmen for centuries to create timeless fixtures, has now returned to our bathrooms.

Due to the specialized manufacturing process, which includes firing in kilns up to 2000 degrees Fahrenheit, fireclay becomes one of the most durable materials used in today's bathroom fixtures. Their specialized glaze coating that is fused with the fireclay body during firing gives fireclay sinks a non-porous, uniform surface which will not scratch, rust or stain over time.

BOCCHI Fireclay Bathroom Products allow homeowners to compliment other furnishings and incorporate many different themes to showcase their creativity.

With 12 designer colors to choose from including metallic glaze finishes, and multiple styles and sizes, each product can be installed in multiple ways that allow you truly customize your style... define your world with BOCCHI bathroom products.

DESIGN

The idea of design now goes beyond mere objects and products and turns into a holistic experience in our age.

Our priority is to introduce differentiated products that have stories. Stories driven by the idea of design, to the process all the way from initial design concepts through the end user.

BOCCHI is committed to combining its modern and traditional human-oriented design approach with high technology to offer innovative solutions. It's a hallmark to our company's original motto of "il bagno per tutti" or "a bathroom for all."

Each product takes a journey from soil to ceramic... along the way BOCCHI remains a leader in its awareness for responsibility for nature and society. Each product is designed and built with care, and meant to last.

EXCLUSIVE BOCCHI COLORS

Color choices in the home create focal points, convey emotions and reflect our personal style.

Now BOCCHI gives you the opportunity to carry all these colors into your bathroom. You can create unique color stories in your home that balance the natural focal point created by your bathroom fixtures with the harmony created by your other accessories and finishes.

SUPER SMOOTH SURFACE

Super Smooth Surface technology has been developed to minimize lime remains, undesirable dirt and bacteria on ceramic surfaces and make cleaning easier. This technology is the result of many years of research.

Super Smooth Surface is 19 times smoother and has less roughness than regularly glazed surfaces.

Test results show that super smooth technology provides a surface that has a higher quality than regular porcelain surfaces. Therefore, the Super Smooth Surface requires much less water to clean and is more hygienic.

19X SMOOTHER, 19X EASIER

CLEAN+ TECHNOLOGY

Another innovative enhancement from BOCCHI is the Clean+ Technology. This technology helps you keep your bathroom fixtures always brilliant, clean, shiny and new.

Clean+ Technology decreases roughness so the contact angle of the ceramic surface can create a hydrophobic effect, which helps to prevent lime remains and undesirable dirt build up.

A smooth wipe and a mild cleaning would be sufficient to maintain the spark of your fireclay.

General Care and Cleaning Tips

For best results, keep the following in mind when caring for your product: Always test your cleaning solution on an inconspicuous area before applying it to the entire surface. Wipe surfaces clean and rinse completely with water immediately after applying cleanser. Rinse and dry any over-spray that lands on nearby surfaces. DO NOT allow cleansers to soak on surfaces. Use a soft, dampened sponge or cloth. NEVER use an abrasive material such as a harsh brush or scouring pad to clean any BOCCHI surface. Success with cleaners and procedures is dependent upon such factors as the hardness and temperature of the water, exact measurements of ingredients, changes in cleaning formulas and the condition of the product being cleaned. Since there are variations within these factors, BOCCHI cannot guarantee the effectiveness of the formulas mentioned.

Care & Cleaning Tips for Fireclay and Vitreous China: Rinse thoroughly and use a soft cloth to wipe the product dry after each use. Soft abrasive cleaners may be used when necessary to clean BOCCHI fireclay and vitreous china fixtures. Strong abrasive cleaners should NEVER be used and may scratch or dull the surface. The appearance of surface marks and build-up of rust or other stains, minerals, etc. on the surface may be easily removed using recommended cleansers such as Bar Keepers Friend.

Care & Cleaning Tips for Granite: Rinse thoroughly and use a soft cloth to wipe the product dry after each use. Soft abrasive cleaners may be used when necessary to clean, strong abrasive cleaners should NEVER be used. To prevent limescale build-up leave a solution of warm water and white vinegar or a specific descaling/anti-limescale product for use with granite sinks, on the sink bottom for a few hours (or as directed)--then rub vigorously with a non-abrasive sponge until clean and rinse and dry sink.

Care & Cleaning Tips for Faucets, Soap Dispensers, Chrome and Other Metal Surfaces: DO NOT use cleansers containing ammonia, bleach or acid. Rinse thoroughly and use a soft cloth to wipe the product dry after each use. The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, NOT an abrasive or rubbing action. Cleaning with a damp sponge or cloth and buff drying should keep your product looking beautiful.

THANK YOU FOR CHOOSING BOCCHI

Care & Cleaning Tips for Sink Accessories: Non-wood accessories may be cleaned using standard dish soap, or be washed in a dishwasher. It is important to thoroughly dry after each wash to maintain the best finish to each surface. Wood accessories should be thoroughly washed and dried after each use and never stored wet to prevent warping. Occasional application of a thin coating of food-grade oil to the wood surfaces will prevent them from drying out. Be sure to wipe off any excess oil after application.

Care & Cleaning Tips for Bathroom Furniture: To maintain your bathroom furniture, use a soft, damp cloth for gentle cleaning. After cleaning the wood surfaces, ensure thorough drying. Opt for mild cleaning materials or soapy water, while avoiding abrasive and acidic cleaners: test on an unexposed area before using. Be careful to prevent contact extreme heats from styling tools etc. Avoid exposure to extreme temperatures and intense sunlight to prevent damage. Avoid moisture buildup to prolong the furniture's lifespan.
